

# 7 simple actions to protect the planet!

ManpowerGroup is committed to fighting global warming and protecting the environment. Our ambition is to achieve zero net emissions by 2045 at the latest.

**We all have a role to play.**

## Take care of the earth

- The most environmentally friendly material is the one that hasn't been manufactured!
- Avoid waste.
- Take care of the equipment provided and your personal belongings.

## Biodiversity

- Why not embellish your workspace with a few plants?

## Save water

- Report leaks to P&F promptly.
- Don't let the water run unnecessarily.

## Save energy

- Favour natural light whenever possible.
- Turn off lights when leaving a room.
- Unplug chargers when appliances are not in use.
- Reduce digital pollution by deleting obsolete emails and documents.
- Air conditioning / Heating = windows closed: turn off or set the thermostat to the right temperature to reduce energy consumption.
- Fridge: optimise storage to reduce energy and food waste.

## Recycling

- Sort your waste: paper, plastic, organic waste, glass, electronics, etc.
- Return faulty or unused IT equipment to the IT department.
- Use recycled or recyclable products and avoid using disposable products.

## Limit printing

- Give preference to digital documents and electronic signatures.
- Print on both sides and in black and white.
- Reuse sheets of paper used on one side only for drafts.

## Mobility

- Encourage carpooling or public transport.
- Cycle or walk for short journeys.
- If you're entitled to a company car, opt for an electric one to speed up the transition.
- Adopt eco-responsible driving, in complete safety.

The change starts with you and me

These small gestures may seem insignificant individually, but they go a long way towards protecting our planet when we adopt them collectively! **Thank you for your support.**
